PROJECTS

Library Management System for ATI Tangalle (Final Individual Project)

PHP | MySQL | HTML | CSS | JavaScript | GitHub

- Developed a web-based Library Management System to automate daily library operations.
- Implemented secure CRUD operations (PHP/MySQL) for books, members, borrowings, reservations, and fines.
- Designed a responsive UI (HTML/CSS/JS) with automatic fine calculation and overdue tracking.

Vehicle Rental Management System (DBMS Assessment Project)

MySQL | PHP | HTML | CSS

- Designed a relational database for customers, vehicles, bookings, and payments.
- Created 4 tables with proper primary and foreign keys and applied normalization techniques.
- Created ER diagrams, class diagrams, and use case diagrams.

Student Registration Management System for H/ Konkarahena K.V. (Individual Project)

Microsoft Access | DBMS

- Developed a database system to manage student registrations and academic records.
- Designed 6 tables with relationships and created forms, queries, and reports.
- Improved school administration efficiency by reducing manual record-keeping.
